Party will be returned to West Hotel by trolley at 6:15 sharp. Tickets may be obtained at Bureau of Information.

Tuesday afternoon the Delegates are invited to visit St. Paul.

The new State Capitol, which is noted for its fine architecture and beautiful mural decorations, will well repay a visit. Governor Johnson will receive the Delegates in the Executive Parlors. The city has many attractive and some unique features.

On the return to Minneapolis the Delegates will be entertained to lunch at the Town and Country Club or at Como Park, each of which is situated between the twin cities. The members will be brought back by trolley in time for the evening meeting.

#### RAILROAD RATES AND CONDITIONS.

The Western Passenger Association has granted for the above named occasion the usual rate of fare and one-third on the certificate plan from points outside of Minnesota, *based on fares in effect February 1st, 1907*, and conditioned upon an attendance of one hundred or more persons holding certificates showing the purchase of tickets at regular rates, providing such rates are in excess of fifty cents.

Tickets for Minneapolis may be purchased in Western Passenger Association territory on June 6, 7, 8, 9, 10, 11, 12, and return tickets from Minneapolis can be purchased from June 14th to 25th inclusive.

The same rates have been granted by the Southeastern Passenger Association and the Southwestern Excursion Bureau. These include all the territory south of West Virginia and the Ohio River to the Mississippi, and south of St. Louis, Kansas City and the State of Kansas to New Mexico.

The Local Committee has assurances that the New England and the Canadian Passenger Associations have joined the Western, Southeastern and Southwestern Associations in the rate of one and one-third fare on the certificate plan.

The Central Passenger Association has announced excursion rates at about two cents per mile, and will sell through tickets over Western Association territory by way of Chicago, Peoria or St. Louis at practically the same rate.

The Trunk Lines Association has also announced excursion rates on favorable terms and their roads will sell through round-trip tickets over their own, the Central and the Western Associations' territory.

State Capitol.

The Trans-Continental Passenger Association announces special excursion rates from California, Oregon, Wyoming and other Rocky Mountain and Pacific states.

Round trip excursion rates are quoted as follows: From Ohio points, Cleveland \$28.50, Cincinnati \$24.70, Columbus \$27.50; from Indiana, Evansville \$20.15, Indianapolis \$20.20, Terre Haute \$17.65; from Louisville \$24.65, Pittsburgh by the Ft. Wayne route \$35.20, by the Nashville \$32.80; New York by the Central and the Penna. \$53.80, by other roads \$50.80; Buffalo and Toronto \$35.20, Boston \$54.20.

## GET PRECISE RATES LOCALLY.

All intending Delegates are urged to call promptly upon their local passenger agents and get precise information. From some points it may be advantageous to take excursion tickets to one of the Western Association's eastern gateways (St. Louis, Peoria, Chicago), and buy on the certificate plan for the remainder of the journey. This plan may suit those from the East who wish to stop over at Chicago on the homeward journey.

The Auditorium.

## A WATER TRIP.

A pleasant journey to Minneapolis can be made by the lakes from Buffalo to Mackinac, thence by the Soo R. R. The rate is \$33.50 for the round trip, berths and meals extra, but quite moderate in price. Or for one wishing to make the journey a very restful occasion, boats may be taken from Buffalo to Duluth, in which case the beautiful shores of Lake Superior may be enjoyed for many miles.

To anyone who has not seen them the southwestern shores of Lake Superior and the magic city of Duluth are full of interest.

## CERTIFICATE RATES.

Those from territory where the certificate plan rate is in effect will please notice the following conditions:

A first-class single trip ticket to Minneapolis must be purchased, for which the regular fare must be paid.

A certificate must be obtained from the ticket agent when the ticket is purchased.

The certificate must be deposited with the General Secretary of the Conference for validating, on arrival in Minneapolis and the validating fee of twenty-five cents must be paid when the ticket is deposited.

You must begin your homeward journey not later than June 25th.

No excursion, clergymen's rate or other reduced rate ticket entitles the holder to a certificate, nor can the same be counted in estimating the required number of one hundred.

No refund, nor any other reduction can be secured on account of failure to secure the regular certificate from whatever cause.

If for any reason the ticket agent at your point of departure can not supply you with a certificate, buy a ticket to the nearest point where they are obtainable, and purchase your ticket there.

### TO AVOID DISAPPOINTMENT MAKE SURE

**FIRST**—That your local ticket agent is supplied with certificates. Sometimes they are without them. Therefore, if your station is not in a large city, ascertain a few days ahead, that the ticket agent has the certificates and that he is informed of the rate.

**SECOND**—That you have plenty of time to buy your ticket, get the certificate and check your baggage. At least thirty minutes is usually required for this.

**THIRD**—That your certificate is duly VALIDATED at Minneapolis. It is useless without that. This can only be done on the appointed dates and after ONE HUNDRED certificates have been deposited; THEREFORE

**FOURTH**—Deposit your certificate with the Secretary as soon as you arrive at Headquarters.

### THE LOCAL COMMITTEE.

For the first time in the history of the Conference, the Commercial Club of the city visited has taken complete charge of the local arrangements.

The Public Affairs Committee of the Commercial Club acts as the Local Committee of the Conference, the various subcommittees are made up of members of the club, with ladies and gentlemen of Minneapolis and St. Paul; the list of chairmen is as follows:

### THE THIRTY-FIFTH CONFERENCE

Will assemble at Richmond, Va., on Wednesday, May 6th, 1908, and adjourn Wednesday, May 13th.

### THE EXECUTIVE COMMITTEE.

The Committee has met three times since the Minneapolis conference adjourned; in New York on July 11th, in Chicago, Sept. 16th, and at Jamestown, Va., Oct. 29 and 30, during the session of the Virginia State Conference, in which the members of the committee present, took part.

The date for the 35th Conference was decided at the third meeting, as above noted. It was resolved to give up all the mornings to section meetings. All the general sessions will be held in the evenings, each committee being allotted one of them.

On Sunday the Conference Sermon will be delivered in the afternoon; in the evening the Conference will hold a general session devoted to children.

The number of sectional meetings will be practically optional with the committees. To each one that wishes for it, will be assigned a room for its exclusive use for the sectional meetings. By this plan adjournment may be made from time to time as desired and the discussions will not be cut off, as has often been the case, by the necessity of vacating the room for some other committee's use.

The meeting of the Executive Committee at Jamestown was attended by representatives from the city of Richmond and the date of the Conference and the use of the evening sessions was decided upon with their advice and approval.

The president, secretary and one or two other members of the Executive Committee will go to Richmond early in January, at which time the local committee will be organized and other arrangements made.

## NUGGETS FROM THE REPORTS FROM STATES, 1907.

One of the most important functions of the National Conference is to summarize the nation's progress in charities and correction from year to year.

The Reports from States are designed to contain an annual statement from every State and territory, of four things: 1st. Accomplished events during the year, particularly in the direction of improved, or retrograde, legislation. 2nd. The felt needs of the State in the departments of Charities and Correction. 3rd. The trend of public opinion in these respects. 4th. A statistical report of the Institutions of Charities and Correction. While the State Corresponding Secretaries do not invariably report everything, still The Reports from States give a useful summary of the Nation's progress from year to year.

The "Nuggets" herewith presented are a brief summation of the Reports, the paging is that of the Proceedings of the 34th Conference. Any one who finds something left out of the report from his State is earnestly requested to write at once, giving particulars, to the General Secretary. A classified summary of such omissions, if any appear, will be printed in the 44th Bulletin, under the heading of "Omissions" from The Reports from States, 1907. Readers, desiring fuller information regarding any of the "Nuggets," are referred to the volume of proceedings which will come in a few days. (See paging below.)

#### The National Bulletin.

The BULLETIN is used as a medium of communication between the Executive Committee and the members.

After ten years of publication, a recent ruling of the U. S. Post-office department excludes the BULLETIN from the mails as second class matter. In consequence of this ruling the form of the BULLETIN has been changed, and, while there will be four or more issues each year, it will no longer be necessary to make it a quarterly. As before a copy of each BULLETIN will be sent to every member of the Conference and it is hoped to make it increasingly valuable. Single copies price twenty-five cents.

#### Guide to the Proceedings.

A help to the study of Charities and Correction by means of the Proceedings of the National Conference. About 450 pp., cloth; will be ready about Feby. 1st, 1908. Price \$2.00 or by mail post-paid, \$2.25. The 34 volumes of the Conference contain an unequalled collection of material for study in the departments with which it is concerned; but the most useful papers and discussions on a given subject are distributed through so many volumes as to be practically inaccessible to the busy man, nor do the titles always give an accurate idea of the whole contents of papers.

The Guide consists of brief reviews of more than 1200 papers, addresses and reports contained in the volumes, with references to about 2000 passages in the Discussions and the Reports from States. These are arranged into chapters with sub-titles. The comparative importance to the student of the different articles on a given subject is indicated partly in the text and partly by the size of type used.

#### Reprints.

For reprints from the proceedings, in pamphlet form, see the second cover page.
